Thanks Bill,

Glad we had a good patch of weather for this one. But it looks like that's going to change later this week. Yes please let us know if it looks like it's going to get into Caddo.

Thanks again

Hey Tom,

I just wanted to touch base with you on the spill. Things are going pretty well Sunoco has recovered approx. 3100 bbls of crude but still have quite a bit of work to do. We urged them to put together a Contingency Plan for bad weather and the potential of some oil being pushed into the lake. I believe they have adequate resources on hand to handle things but if you have any questions or issues let me know. You can reach me at 214.437.9804. Thx.
